ALMOST 200 YEARS OF SHORTHORNS IN THE VALLEY OF VIRGINIA

Immediately following the Revolution the first Shorthorns were brought to America. They arrived at Baltimore in 1783, and were immediately moved to their new home on the South Branch of the Potomac, west of Winchester, Virginia.

Those breeders made a great effort to improve their cattle by bringing them from England, even though it meant a long voyage on sailing ships.

Almost 200 years have passed since this first importation but the breeders of this section still insist on having the best Shorthorns available.

You will find in this sale cattle that can improve your breeding program.
